

Expert Photoshop Training & Consulting

AGI sets the standard for Photoshop training and consulting. Our technical professionals have unparalleled depth, history, and skills when it comes to helping you successfully adopt or upgrade to Photoshop CS4.

The Industry Standard

Photoshop is the industry-standard application for digital image editing, retouching, manipulation, and formatting. AGI instructors bring decades of experience as designers, artists, image editing professionals, and interactive producers into all their training and consulting projects. Our instructors are subject matter experts who help you benefit from their real-world experience, giving you the skills necessary to develop compelling, realistic images, paintings, drawings for us in print, on-line, or interactive media. AGI helps you create better looking images and be more productive with Photoshop.

Photoshop Books

AGI instructors have authored many articles, books and training videos related to Photoshop including:
Photoshop CS4 Digital Classroom
Adobe CS4 All-in-one Desk Reference for Dummies
Adobe CS4 Web Premium All-in-one Desk Reference for Dummies

Success Stories

AGI has more than a decade of experience in delivering valuable Photoshop training to the most preeminent magazine and newspaper publishers, fashion & apparel design firms, television and video producers, advertising agencies, and many in-house marketing and creative departments at companies around the world. Creative professionals around the world attend AGI's annual CRE8 conference and CS4 seminars to discover the latest tips, techniques and best practices.

Commitment to Adobe Creative Suite 4

AGI staff, instructors and management use the Adobe Creative Suite 4, including Photoshop CS4, for web site development, e-learning tools and interactive media production. Like our students, we rely on CS4 applications and can provide a unique, real-world workflow perspective.

Training

AGI offers regularly scheduled, open-enrollment Photoshop CS4 courses for beginners to advanced users, and has special experience in working with Photoshop in unique industries such as fashion, apparel, and accessories design, along with architectural rendering and 3D uses.

Custom Services

AGI offers customized training programs tailored to your company's specific goals and needs. This includes custom tailored curriculum and materials that apply to your organization's unique objectives. Training can occur at your location or any AGI classroom location.

Learn from the Experts
