

LiveCycle Designer Training Course

In this Adobe LiveCycle Designer training class, you'll discover how to expand your use of PDF to include interactive PDF forms for collecting and capturing data while maintaining the look and feel of original paper documents. You'll understand how to use Adobe Designer to create comprehensive PDF forms that capture and submit data in a familiar Adobe PDF format. You will gain a better understanding of this complete form layout environment, including understanding of the tools, user interface, PDF and XML preview capabilities, and form submission options.

What you'll learn in this training course

- The difference between PDF and HTML forms
- Creating Menus with Combo Boxes and List Boxes
- Layout Techniques
- Editing form fields
- Validating Form Data and user input
- Importing and Exporting Form Data
