

Adobe Photoshop Training Course – Intermediate

In this intermediate Photoshop class, build on the information covered in the introductory course to produce complex selections and paths. Discover creative uses for Photoshop filters, and learn how to take advantage of adjustment layers. Adobe Photoshop automation features are covered, as well as speeding up production tasks with automation and buttons.

What you'll learn in this training course

- Advanced Image Editing and Layer Techniques
- Adjustment Layers
- Smart Objects
- Non-destructive Image Editing
- Applying Filters
- Optimizing Images for Web and Video
- Creating 3D images

Audience for this training course

This course is designed for media professionals who have already completed the introductory Photoshop course, or who have previous experience working with Photoshop. This class requires knowledge of all topics covered in the Photoshop Introduction class.

Training course duration

This class is a two-days in length. It runs from 9:30 am- 4:30 pm. Lunch is approximately from noon - 1:00 pm.

Training course curriculum

This training course uses lesson files and content from the Photoshop Digital Classroom, which was written and created by our instructors. These training courses are delivered by the same instructors that write this best-selling series.

Enrolling in this Adobe Photoshop intermediate training course
