

Creative Cloud Training Class for Web Design

This Creative Cloud training class for web design teaches essential skills for creating or editing websites, landing pages, and HTML emails using Adobe Creative Cloud applications. Course participants learn Adobe Creative Cloud tools including Dreamweaver, Photoshop, and Muse to create and share content online.

What you'll learn in this training course

- Creating sites and pages in Dreamweaver CC
- Creating pages with links
- Using CSS to format web content
- Adding animations, video and audio to online content
- Using Photoshop CC to optimize images for use online
- Essential image manipulation skills with Photoshop
- Identifying correct Creative Cloud apps for web projects
- Create interactive content using Animate

Audience for this training course

This course is designed for professionals who will use Adobe Creative Cloud applications for creating content that is shared online. This includes websites, landing pages, HTML emails, and other online content. Participants gain an understanding of the Adobe Creative Cloud tools for creating websites, web pages, landing pages, and HTML emails. This Adobe Creative Cloud training is geared towards users who are new to Creative Cloud and need a survey of its web design capabilities.

Training course duration

This class is a three days in length. It runs from 9:30 am- 4:30 pm. Lunch break is approximately from noon - 1:00 pm.

Training course curriculum

This training course uses lesson files and content from the Creative Cloud Digital Classroom books, which are written and created by the instructors at American Graphics Institute. These training courses are delivered by the same instructors that write this best-selling training series for learning the Creative Cloud apps.

Enrolling in this Adobe Creative Cloud training course for web design

- Making web content interesting
- Inserting animation and movies
- Choosing the right video format
- Adding video
- Adding video controls
- Understanding plug-ins
- Choosing the right audio format
- Inserting sound
- Updating and editing colors

Lesson 6: Photoshop Workspace

- Opening an existing file in Mini Bridge
- Discovering the Tools panel
- Accessing tools and their options
- Using panels
- Hidden tools
- Navigating the image area
- Using the Zoom tool
- Using the Hand tool
- Working with tabbed windows
- Maximizing productivity with screen modes

Lesson 7: Using Bridge in Creative Cloud

- Introducing Adobe Bridge
- Navigating through the Bridge
- Using folders in Adobe Bridge
- Making a Favorite
- Creating and locating metadata
- Using the Filter panel
- Saving a collection
- Automation tools in Adobe Bridge
- Additional Photoshop tools
- Changing the view

Lesson 8: Photoshop CC for Web Design

- Introducing Adobe Bridge
- Navigating through the Bridge
- Using folders in Adobe Bridge
- Making a Favorite
- Creating and locating metadata
- Using the Filter panel
- Saving a collection
- Automation tools in Adobe Bridge
- Additional Photoshop tools
- Changing the view

Adobe Creative Cloud for Web Design Training Class topics:

Lesson 9: Retouching images

- Setting up your color settings
- Comparing RGB and CMYK modes
- Using the Color panel
- Changing Brush settings
- Applying color to an image
- Changing blending modes
- Retouching images
- Moving through the History panel
- Using the Clone Stamp and Healing tools
- Working with Camera Raw

Lesson 10: Creating Images in Photoshop

- Choosing your color settings
- Working in RGB
- Reading a histogram
- Adding video
- Making a Curve adjustment
- Defining the highlight and shadow
- Adjusting the midtones
- Setting the neutral
- Sharpening your image
- Taking care of red eye

Lesson 11: Photoshop Layers

- Discovering layers
- Getting a handle on layers
- Creating a new blank file
- Naming your layer
- Selecting layers
- Moving layers
- Changing the visibility of a layer
- Locking a layer
- Using masks in a layer
- Preserving transparency

Lesson 12: Adobe Animate Essentials

- Creating HTML5 compositions using Adobe Animate
- Importing graphics
- Choreographing animations
- Animating position, size, color, shape and rotation
- Using easing effects
- Understanding Actions
- Using the Actions Editor
- Using code snippet library
- Attaching actions to Elements, Time, Triggers, and the Stage
- Using Labels in Adobe Animate
- Creating multiple compositions with Adobe Animate
- Using semantic tags
- Working with guides
- Creating Adobe Animate objects
- Using the Adobe Animate timeline
- Adding background images
- Creating repeating backgrounds
- Exporting and publishing animations
